PROJECTS

CosmicAI | [Live](#) | ReactJS, Redux, Node.js, Express, Socket.io, MongoDB, Pinecone May 2025 | [Git](#)

- Built CosmicAI, an intelligent real-time chat application powered by Generative AI.
- Integrated Socket.io for seamless real-time **AI-to-User conversations**.
- Developed **STM & LTM** using VectorDB and **AI-driven responses** using GenAI models for dynamic interactions.
- Designed and implemented a **responsive UI** with ReactJS for smooth user experience.
- Implemented **secure authentication and user management** with JWT.
- Deployed successfully on **Render** for **scalable performance and real-time communication**.

BiteScroll | [Live](#) | ReactJs, Node.js, Express, MongoDB, ImageKit Aug, 2025 | [Git](#)

- Built BiteScroll, a full-stack web app where users can scroll through an endless feed of food reels.
- Integrated **ImageKit** for efficient video hosting, storage, and fast content delivery.
- Added feature for users to **explore stores/restaurants** offering the showcased food items.
- Developed a **dynamic, responsive UI** with ReactJS for an engaging browsing experience.
- Used **MongoDB** for structured storage and efficient management of food and store data.
- Implemented **secure backend APIs** with Node.js and Express.js for reels and store information.
- Designed with a focus on **scalability, performance, and smooth user interaction**.
